As an Oral and Maxillofacial Surgeon with a specialisation in Onco-surgery, I specialize in providing comprehensive surgical care for patients with conditions and disorders affecting the oral cavity and face such as trauma, benign pathologies and especially oral cancer. I am passionate about learning more, be it by myself or from my peers and seniors to hone my skills in becoming a well-rounded surgeon who is committed to providing the highest level of quality care to my patients and helping them achieve the best outcomes possible.
