OBJECTIVE

To work as a dedicated dentist where I can apply my clinical skills, grow through hands-on experience, and contribute to quality patient care under expert guidance.

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented BDS graduate with a solid foundation in preventive, restorative, and cosmetic dentistry. Dedicated to delivering comprehensive oral healthcare with precision, empathy, and patient comfort at the core. Passionate about enhancing smiles through quality dental care, patient education, and aesthetic excellence. Seeking an opportunity to apply my clinical expertise, expand my skills, and grow within a dynamic and patient-focused dental practice.

EDUCATION

Bachelor of Dental Surgery (BDS)

Vaidik Dental College & Research Centre, Daman (Gujarat University)

Passed in September 2025

CLINICAL EXPERIENCE

Associate Dentist at Shree Swami Samarth Dental Clinic,

- Performed comprehensive diagnosis and evidence-based treatment planning for patients across all age groups.
- Interpreted intraoral periapical radiographs (IOPA) for accurate clinical assessment.
- Executed ultrasonic scaling and polishing procedures ensuring optimal periodontal health.
- Performed routine and surgical extractions with atraumatic technique.
- Completed single and multi-visit root canal treatments with emphasis on precision and patient comfort.
- Restored teeth using composite restorations and Glass Ionomer Cement (GIC) fillings.
- Performed tooth preparation for crowns and fixed prostheses.
- Assisted and performed crown lengthening procedures where indicated.
- Conducted intraoral scanning and digital workflow procedures.
- Took primary and final impressions for fixed and removable prostheses.
- Delivered removable partial and complete dentures with post-insertion instructions.
- Prescribed medications responsibly based on clinical findings and diagnosis.
- Provided tobacco cessation counselling and preventive oral healthcare guidance.
- Educated patients on brushing techniques, oral hygiene maintenance, and dietary modifications.

Observership at ABBAD'S Dental Clinic, Nashik,

- Observed various types of dental implant procedures including single-tooth implants, multiple implants, and full-arch rehabilitation cases.
- Gained exposure to implant case selection, treatment planning, and radiographic evaluation.
- Understood clinical decision-making, patient communication, and ethical practice management.
- Learned to take and interpret OPG and CBCT for implant planning and diagnosis.
- Observed surgical implant placement, suturing techniques, and post-operative care protocols.
- Assisted in discussions regarding implant-supported crowns and prosthetic rehabilitation.

Dental Intern at Vaidik Dental College & Research Centre, Daman

- Diagnosed & treated dental conditions including cavities, gum disease, and oral infections.
- Performed restorative and cosmetic procedures such as fillings, crowns, and teeth whitening.
- Educated patients on oral hygiene, dietary habits, and preventive dental care.
- Utilized digital radiography and advanced diagnostic tools for accurate assessments.
- Ensured high standards of sterilization, hygiene protocols, and patient safety.
- Conducted routine check-ups for patients of all age groups.
- Assisted in complex procedures including root canals, extractions, and minor oral surgeries.
- Conducted dental awareness and treatment camps in schools, villages, companies, and resorts, promoting preventive oral health and community education.

KEY SKILLS

- Preventive & Restorative Dentistry – Skilled in fillings, scaling, polishing, and fluoride treatments for preventive oral care.
- Root Canal Treatments – Proficient in single & multiple rooted RCTs with precision and patient comfort.
- Expertise in crown and bridge work, removable and fixed dentures, and aesthetic restorations.
- Oral Surgery Assistance – Assisted in disimpactions, and minor surgical procedures.
- Patient Communication & Care – Strong ability to explain diagnoses, manage patient anxiety, and ensure a positive dental experience.
- Digital Dentistry & Radiography – Experienced in intraoral scanning, radiograph interpretation, and digital workflow.
- Infection control & Sterilization – Adheres strictly to sterilization and cross-infection control protocols.

INTERNSHIPS & PROFESSIONAL EXPERIENCE

Digital Marketing Intern – IIIDE (Indian Institute of Digital Education)

Gained hands-on experience in social media marketing, branding, and content strategy. Applied digital tools to enhance communication and audience engagement.
