Analytical and detail oriented medical graduate looking forward to work with an organization which allows me to develop professionally and utilize them to the best of my ability

PROFESSIONAL EXPERIENCE

EMERGENCY DEPARTMENT

- Triage & prioritization – quickly identifying critical patients and managing time-sensitive emergencies
- Emergency assessment (ABCDE approach) – airway, breathing, circulation, disability, exposure
- Basic Life Support (BLS/CPR) and assisting in resuscitation
- Trauma management – bleeding control, wound care, fracture immobilization
- IV access & fluid management in emergency cases
- Monitoring vital signs & ECG and recognizing deterioration early
- Assisting in emergency procedures (suturing, catheterization, nebulization)
- Handling critical cases like RTA (accidents), stroke, MI, poisoning, shock
- Teamwork & communication in fast-paced emergency settings

INTENSIVE CARE UNIT

- Continuous monitoring of vital signs (BP, HR, SpO₂, ECG) and early detection of deterioration
- Basic understanding of ventilator management (modes, alarms, oxygen settings)
- Assisting in airway management and oxygen therapy
- IV line care, fluid management, and assisting in drug administration (inotropes, antibiotics)
- Knowledge of ABG (Arterial Blood Gas) analysis basics
- Maintaining strict aseptic technique & infection control
- Assisting in procedures: intubation, central line, catheterization, suctioning
- Monitoring urine output, input-output charting
- Managing critical cases: sepsis, ARDS, stroke, post-operative care
- Working closely with multidisciplinary ICU team
